101 FENCE

SELECTION • CALCULATION • INSTALLATION

A COMPREHENSIVE CURRICULUM

DEVELOPED AND SPONSORED BY RED BRAND

THE NEED FOR FENCE 101

Getting the right fence installed correctly can make all the difference in ensuring a fence works properly and lasts a long time. Red Brand has created a unique way to build awareness and educate students on the importance of correct selection, calculation and installation of agricultural fencing for the wide variety of needs they may encounter as future farmers, property owners and ag business leaders.

FENCE 101 CURRICULUM

The Fence 101 Curriculum Kit includes everything needed to present this program, including a comprehensive instructor's manual, PowerPoint presentations with videos, printable quizzes & handouts and actual fence samples. Each of the five lessons is approximately 50 minutes in length, making the program manageable for most classroom situations. And, no matter the background or level of expertise in the area of fencing, instructors will find this program easy and fun to teach.
